

WHAT MAKES THE OPTILUMEN PRODUCT SPECIAL?

UNPARALLELED EFFICIENCY: The new version of our RKT retrofit kit delivers nearly 5750 lumens (verified by Everbright testing labs) on just 40 total Watts of AC power. That's over 140 lm/W!

BEST THERMAL MANAGEMENT IN THE INDUSTRY: Our UL documented 36C operating temperature is the lowest in the industry.

HIGHEST RELIABILITY POSSIBLE: By combining the incredible efficiency and durability of our driver with the unparalleled low operation temperatures of our kit, we offer the longest lasting, lowest maintenance system available.

BEST ROI ON THE MARKET:

Combining all of the above factors makes the Optilumen RKT series retrofit kit the most cost effective solution available, and leaves the rest of the industry in a distant second at best.

SIMPLEST INSTALLATION IN THE MARKET SEGMENT: 5 minute retrofit per fixture with potentially no tools. Nobody else even comes close!

BEST DRIVER IN THE INDUSTRY: With efficiency ratings of over 91%, PF of >99, THD of <5%, total isolation and Dual Power Factor Correction, we boast specs that no other driver manufacturer offers.

LOWEST COST RETROFIT IN THE INDUSTRY: Our extremely competitive product cost, combined with the incredibly easy installation makes the total cost of our product the best value available.
